RIFERIMENTI BIBLIOGRAFICI

Questo elenco è la collezione di buona parte del materiale bibliografico che è stato utile nello svolgimento della ricerca. L’elenco è ordinato grossomodo per argomenti, seguendo l’ordine dei capitoli. Articoli, libri e pagine web non sono divisi in gruppi distinti, ma ordinati per autore, quando l’autore è dichiarato.

Soprattutto nella parte relativa alla definizione del concetto e della descrizione di edge city/exurbia la bibliografia non intende essere esaustiva – impresa difficile per l’enorme quantità del materiale prodotto-, ma selettiva, cioè esito di un processo di selezione operato principalmente sotto la guida autorevole di Margaret Crawford per trovare quei testi, sono comunque un numero considerevole, che hanno permesso una maggiore comprensione della questione o hanno fornito spunti interessanti. Vorrei aggiungere che più di una volta mi è sembrato di leggere sempre lo stesso libro, poiché il contenuto di alcuni testi non riesce a portare elementi nuovi al dibattito, ma ripete con leggere modulazioni concetti già affermati.
